Ajinomoto Group's challenges to "Resolve Food and Health Issues"

Dr. SHIRAGAMI Hiroshi

Executive Officer & Senior Vice President/ Chief Innovation Officer (CIO) &
Management of R&D

Summary

The Ajinomoto Group has a vision of "Contribute to greater wellness for people worldwide, unlocking the power of amino acids to resolve the food and health issues associated with dietary habits and aging", and aim to achieve the outcome of extending the healthy life expectancy of 1 billion people by 2030. Innovations based on the "function of amino acids", global efforts to reduce salt with Umami and improve protein deficiency, as well as the evaluation of lifestyle-related diseases and cognitive function, and the provision of solutions, contribute to extending the healthy life expectancy of consumers around the world.
