

**Dr. KOBORI Masuko, NARO,  
Japan**

Dr. KOBORI Masuko is manager of the Division of Food Function Research, Institute of Food Research (FRI), National Agriculture and Food Research Organization (NARO), Japan since 2018. She earned her Ph.D. degree in Pharmaceutical Sciences from Chiba University. She is conducting research projects toward a personalized diet for longevity with a high quality of life. She is the PI of a subgroup of the Moonshot goal 5 research & development program “Development of innovative food solution for simultaneous food loss reduction and QoL improvement” from 2020. From 2021, she is the leader of the NARO research project “Development of health and preference visualization technologies and creation of custom-made healthcare food” and the Ministry of Agriculture, Forestry and Fisheries (MAFF) project “Realization of food and dietary habit that contributes to increasing healthy life expectancy”. Her research interest is the molecular mechanism of food components that contribute to maintaining health.
