Bayer Crop Science***

Bayer is a life science company and a global leader in health care and nutrition, driven by science and innovation to promote Health for All and Hunger for None.

At Bayer, we work to shape agriculture through breakthrough innovation for the benefit of farmers, consumers and our planet. We combine modern science with farmers' ingenuity to help nourish our growing world with reliable, sustainable harvests using less land, water and energy. We're committed to delivering better solutions for all farmers while enabling more choice for consumers to help them and our planet thrive. And, while we don't have all the answers, our passion for discovery, collaboration and curiosity means we will never stop striving to find them.
