

NARO 1st International Symposium on Food and Health “Food Science to Market, from Local to Global”

NARO is holding an international symposium on the theme of “Food and Health” in March 2022, by inviting speakers from food-related private sector and academic research institutes that are conducting research from a global perspective. Based on scientific evidence on food and health rooted in regions such as Asia, America, and Europe, we will discuss how to create a food industry and contribute internationally by increasing the value of food and expanding it to the global market.

1 March 2022
